FEATHERLITE

TRAILERS

PASSENGER TRAM TRAILER | MODEL 3115

Passenger tram trailers from Featherlite are a unique way to show visitors and tourists the sights and sounds of parks, state fairs, race tracks and other attractions and events. These smooth-towing trams allow for passengers to easily load and unload with their open sides, while a wheelchair ramp is also optional. Seven aluminum benches can seat approximately 28 people, and two trams can be pulled together.

PRODUCT SPECIFICATIONS

8' width

Length of 17'

67" inside height

Two 4800# axles

15" 6-hole silver aluminum wheels with ST225/75R15 Load Range E Goodyear tires

PASSENGER TRAM TRAILER | MODEL 3115

FEATURE	FUNCTION	BENEFIT
Aluminum Construction	Featherlites are made with an all-aluminum frame and skin.	With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow.
LED Lights	Trailer comes with 11 round clearance lights and 2 stop/turn lights.	LED lights give trailers more visibility when traveling down the road at night. LED lights also use less energy and last longer than conventional lighting.
E-Z Lube Axles	Trailer comes standard with E-Z Lube axles.	The E-Z Lube axles make bearing lubrication quick and easy with an E-Z Lube cap that allows for easy access, extra protection and virtually no mess.
Wiring Harness	One-piece wiring harness is standard.	With Featherlite trailers, all wires are bundled in a protective jacket, known as the Featherlite wiring harness. Wire harnesses provide a watertight seal, protect against wire wear and tear and make connecting them to your vehicle easy. Without the harness, the individual wires would hang loose and unprotected.

FOR FULL ARRAY OF FLOORPLANS, VISIT WWW.FTHR.COM.

*10-year limited structural warranty on frame and superstructure. Some exclusions apply. Ask dealer for details. **Trailer may be shown with options.
